

## ***THE BUSTER FOUNDATION COMMITMENT TO FOSTER CAREGIVERS:***

As a foster caregiver to one of the dogs from The Buster Foundation we guarantee that you will be treated fairly and justly, and as a respected and valuable part of the team.

The Buster Foundation will not discriminate against a person based on sex, race, religion or ethnicity.

The Buster Foundation will make every effort to fit the needs and requests of a foster caregiver to the best of our ability.

The Buster Foundation agrees that each foster dog will be examined by a veterinarian prior to placement. All health concerns will be properly addressed and the foster caregiver will be informed of any conditions prior to placement.

The Buster Foundation will not intentionally place a dangerous dog in a foster home. While we thoroughly assess the temperament and behavior of each foster dog, The Buster Foundation makes no guarantees of the continuing mental soundness of any foster dog.

Be advised that at any time while the foster caregiver is in possession of a Buster dog, if The Buster Foundation deems the foster dog to be non-adoptable due to aggression issues, serious illness or injury, or any other condition that may negatively affect the future adoption of the fostered dog, The Buster Foundation reserves the right to determine the appropriate action to be taken on behalf of the best interests of the foster dog, and the welfare and safety of the public - which may include humane euthanasia by a licensed veterinarian.

Each foster dog will have a microchip traceable back to The Buster Foundation.

The Buster Foundation recognizes it is the foster caregiver who decides to foster a dog, and that the foster caregiver may decline any particular foster placement, with or without providing a reason.

The Buster Foundation will be responsible for any veterinarian bills concerning the foster dog's health. All health care provided while in the care of the foster home must be cleared through The Buster Foundation prior to any treatment being administered. Emergency veterinarian care is covered provided that the need for care was not a result of negligence or abuse on the foster caregiver's part.

The Buster Foundation will provide food and medications for the foster dogs. In some cases, foster caregivers may be reimbursed for approved brands of dog food up to \$20 per dog per month.

The Buster Foundation will provide each foster provider a crate or kennel, and food per availability to the foster provider for the care of the foster animal.

The Buster Foundation does not provide any financial compensation to foster care providers above the animals basic care expenses.

The Buster Foundation has the right to remove any animal from a foster placement at any time when neglect or abuse is suspected or witnessed. Foster providers who engage in this type of behavior will be terminated and reported to the authorities for animal abuse.

The Buster Foundation reserves the right to remove the animal from the premises of the foster caregiver for any reason. Failure to relinquish the dog to The Buster Foundation will result in immediate termination of foster caregiver rights. In addition, failure to relinquish a fostered dog will result in an immediate report being filed with the authorities for stolen property.

The Buster Foundation agrees to be available to foster caregivers throughout their commitment for training, consult, boarding and questions. The Buster Foundation encourages foster caregivers to contact us with any concerns or questions about the health, behavior or training of their fostered dogs.
